

# TetraBase™

## Professional Media for Deep Water Culture

Designed specifically for Deep Water Culture, TetraBase is a clean and reusable media that delivers the support large plants require. It does not affect pH, attract pests, promote bacteria or introduce dust or debris to your system. Made in USA with 100% recycled materials.

- Clean
- Reusable
- pH neutral
- Non-porous
- Interlocking
- Non-abrasive
- Available in 6-liter bags

*"The time TetraBase saves me from constantly having to adjust pH levels, as well as the time spent pre-cleaning other medias plus the fact that it's forever reusable made TetraBase the obvious choice for us at Intense Labs."*  
-Dario Baric, Intense Labs
